MA 160 Manual Test Fixture

To enable testing of a PC-Board during the development phase we have developed a small testing unit for Lab usage.

The small Test Fixture MA 160 is based on the renowned Interchangeable Kt System from INGUN. Customising can be carried out either by INGUN or with you own resources.

The contacting force is generated by the operator pressing down the pressure frame. To ensure comfortable, however, we recommend a maximum contact force of 100 N.

Wiring connections can be simply guided out of the fixture housing through a cut-out in the back panel.

Technical Data:

- Overall Dimension: 288 x 183 x 94 mm (w x d x h)
- PC-Board Size (Usable Area): 160 x 100 mm
- Contacting Force maximal: 100 N
- Testing Unit with Interchangeable Kit
 (Pressure Frame and Interchangeable Plate for Pressure Frame)
- Contacting from below
- no Interface
- Weight 3,4 kg

Ordering Description:

MA 160:	Art.-Nr. 28380
Interchangeable Kit ATS 160:	Art.-Nr. 28385
